

Can the church register for a camper?

Camp registration forms require the agreement and signature of a parent or guardian. For this reason, only a parent or guardian can complete a registration for a camper. For those that might need a little help completing the form we recommend that a church administrator, children/youth leader, or other leader sit with the parent/guardian.

Can the church pay for a portion of a camper's registration?

Yes!

The best way to accomplish this is for the church to use the form to purchase a voucher for each camper. The vouchers are unique and can be delivered via email directly to the camper's parent or guardian. On each registration there is an opportunity to enter a Voucher Code. When they enter their unique code that registration will reduce in cost by the amount of the voucher. Vouchers must be purchased before the camper is registered.

If the church does not wish to use vouchers, they can use this same online form to enter each camper name and make one payment via credit card online or check mailed in to the Conference or Regional office.

If you need help with either process, please don't hesitate to contact the Conference or Regional office.

How can someone apply to be a counselor at camp?

Those applying to be a counselor at camp should complete the same registration form as parents/guardians of campers. The form is responsive and will change based on the choices of the user. Those wishing to apply should choose "I am... an adult wishing to be considered as a volunteer counselor" from the dropdown at the beginning of the form to begin their process.

Potential counselors will be asked to complete all information that would be needed should they be selected including medical information.

Completing the form does not complete the application process. Potential counselors will interview with Conference or Regional Staff. If a person is selected to serve as a counselor, we will ask for a \$100 donation to help offset their presence at camp (Emmanuel Pines charges their facility and food fees by the number of participants, regardless of age). This suggested donation is less than what the camp charges per person. Churches are encouraged to help counselors with this donation if possible and a person feels unable to donate that amount, you can talk to staff during your interview.
